Profile

Computer Science student skilled in **web and mobile app development** and **machine learning**. Experienced in using **React**, **Flutter**, **Flask** and **Python** to build real-world projects. Strong in problem-solving, teamwork, and communication, with a passion for creating smart, user-friendly tech solutions.

Education

Bachelor of Engineering in Computer Science and Engineering *2022- 2026*
K.L.N.College of Engineering

Acquired solid skills in computer programming, software development, and creating novel technological solutions with a CGPA of 9.00.

Experience

Software Product Development Intern
Adishtu Tec Lab, Madurai
Sep 2025 – Nov 2025 (2 Months, Paid Internship)

- Worked on software product development for *studentsgpt.ai* and *salestracklive.com*.
- Gained hands-on experience with React, React Native, Supabase, and Canva for real-time software development and design.
- Collaborated with the team to design user-friendly solutions and ensure on-time project completion.
- Participated in the project launch at CODISSIA (October 9–10, 2025) showcasing product outcomes.

FrontEnd Developer Intern
Dot Com Infoway Ltd, Madurai
Dec 2024 – Jan 2025

- Used HTML, CSS, Tailwind CSS, React.js, and Bootstrap to create responsive web interfaces.
- JavaScript was used to add dynamic features to improve the user experience.
- Git was utilized for teamwork and version control.

Skills and Technologies

Technical Skills:

- **Web Technologies:** HTML, CSS, JavaScript, Node.js, React, Flask, Supabase
- **Programming:** Python, C programming.
- **App Development:** Flutter, React Native
- **Database & Tools:** Firebase, Google Drive API, Git, Canva
- **AI/ML Integration:** TensorFlow Lite, OCR Processing, GenAI
- **Language**: English, Tamil.

Soft Skills: Communication Skills, Problem Solving, Leadership, Team Player.

Projects

AI Based Sign Language Conversion

- Real-time gesture recognition app using **Flutter** and **TensorFlow Lite** to convert sign language into speech for inclusive communication.

Face Recognition Cloud-Based File Storage System (Facevault) https://keen-unicorn-fe6d06.netlify.app/

- Web app using **face-api.js**, **Firebase**, and **Google Drive API** to authenticate users via face and access secure cloud data.

Career Sense (Career Guidance Assistant App)

- AI powered app that gives personalized career guidance by analyzing academic data and interests using **Flutter** and **ML** backend.

EduAdvisor (AI-Powered Career Guidance Platform) https://eduadvisor.netlify.app/

- A **web-based platform** that guides students in choosing the right **career path after 12th grade** using AI-driven recommendations.

TerNova (Mental Health Personalized App)

- Personalized mental health support app using **Flutter** and **GenAI** to analyze user moods and provide real-time empathetic responses.

REFL System

- Embedded system with sensors to detect **rain**, **earthquakes**, **fire**, and **Laser-based intrusions**, sending real-time alerts for safety and security.

Achievements

- Finalist, **ICT Academy Youth Talk** (2023); Speaker in 2023 & 2024
- **Best Performer Award** (2022–2023) for academics, leadership, and participation
- Presented **Neo Sign Vision** at **SITCON Trade Expo** and published in **IJERT (2025)**
- Presented **FaceVault** (2nd IRP Project) **at MITCON**
- Selected for **Smart India Hackathon** (2023 & 2024, internal rounds)
- Participated in **CII Connect Madurai 2024**
- Presented research on **IoT Sensor Fusion** at **ICON: ENIAS'25**
- **NPTEL Certified** in Cloud Computing (75%, Silver Medal) and Online Privacy (70%)
